Follow us on Twitter!

3sHealth is now active on Twitter!

Our first tweet is a video introduction to 3sHealth. In it, we talk a bit about who we are and what we do.

We plan to start tweeting regularly about the work we do to support more than 40,000 healthcare employees throughout Saskatchewan, and how we are collaborating with our partners to positively transform healthcare through shared services.

3sHealth has a great story to tell, and we can do so quite powerfully on social media sites like Twitter. Being on Twitter is also a fantastic way to engage with you, our stakeholders, in real-time.

So don't delay, follow us today! You'll be glad you did.
