Re: Pre-Annual Measure Completed – 3sHealth Payroll Employers
Employee Benefit Plans

The purpose of this document is to provide answers to the commonly asked questions surrounding the pre-annual and the annual measure activities. The pre-annual measure was successfully completed on Thursday, December 10, 2020.

What is the pre-annual measure?

The pre-annual measure is a modified version of the annual measure. The pre-annual measure identifies those employees not currently enrolled in the group life insurance plan, disability income plans or SHEPP pension plan and who will gain eligibility January 1, 2021 based on actual hours worked January 1, 2020 to November 30, 2020. Early enrolment into the disability income plans and the group life insurance plan ensures that premium deductions begin on January 1, 2021. The pre-annual applies only to those employers that subscribe to 3sHealth payroll services.

Eligibility for the extended health care and dental plans are not measured during the pre-annual measure. Extended health care and dental eligibility will be measured during the annual measure on January 7, 2021.

When is the pre-annual measure being run?

The pre-annual measure ran on Thursday, December 10, 2020.

What information is used in the pre-annual measure?

3sHealth uploads a file with actual hours to the end of November for all 3sHealth payroll employees. The hours from this upload file are used for the aggregate hour's calculation for casual and temporary employees. If the employees measured at pre-annual do not meet requirements for eligibility, then no enrolment will be created and they will be re-assessed in the annual measure.

When the pre-annual measure runs, daily eligibility processing will take place before the pre-annual measure is initiated.

What impacts will the pre-annual measure have on employees who fall under the cohorting order effective April 17, 2020?

Employees who were restricted from working at a position due to cohorting at any time in 2020 will have the actual hours they worked from January 1, 2020 to November 30, 2020 (or the date they stopped working at the restricted position) included in the pre-annual measure. If the employees measured at pre-annual do not meet requirements for eligibility, then no enrolment will be created and they will be re-assessed in the annual measure.

Employees actual hours worked from January 1, 2020 to November 30, 2020 at their cohorted position will be included in the pre-annual measure, the employee will be measured as normal. If the employees measured at pre-annual do not meet requirements for eligibility, then no enrolment will be created and they will be re-assessed in the annual measure.

Where can I review my results of the pre-annual measure?

The *Pre-Annual Eligibility Determination Report* and the *Pre-Annual New Eligibility Report* provide the results of the pre-annual measure. These reports are located in MemberNet and are available Friday, December 11, 2020. The results will show employees identified as eligible for one or more benefit plans (excluding extended health care and dental) effective January 1, 2021.

Notification letters are generated after the annual measure for all benefit plans. 3sHealth Employee Benefits will send welcome packages, letters and enrolment information forms to employees after the annual measure runs on January 7, 2021.

When will the annual measure be run?

The annual measure will run on Thursday, January 7, 2021. More details regarding the annual measure will be forthcoming early in January 2021.

What impacts will the annual measure have on employees who fall under the cohorting order effective April 17, 2020?

Employees who were restricted from working at a position due to cohorting at any time in 2020 will have the actual hours they worked from January 1, 2020 to December 31, 2020 (or the date they stopped working at the restricted position) included in the annual measure. After the annual measure runs, 3sHealth Employee Benefits will review the benefit coverage of all employees who were cohorted in 2020 to determine:

- If the employee's annual hours were not enough to maintain benefits as a result of the annual measure, then 3sHealth Employee Benefits will manually reinstate their benefits back to the coverage they had as of December 31, 2020.
- If the employee's extended health care and dental benefits coverage increases as a result of the annual measure then their increase in coverage will begin effective January 1, 2021.

- If the employee did not have benefit coverage at December 31, 2020 and they did not work enough hours to be eligible for benefits after the annual measure runs, then the employee will be measured again on December 31, 2021.

What should I do if I have questions about the pre-annual measure results?

If you have questions regarding your pre-annual measure results or the pre-annual measure process, please send an email to EBP@3sHealth.ca. To help us respond to your inquiry we ask that you put “PRE-ANNUAL INQUIRY” in the subject line of your email. You may also contact a 3sHealth Benefit Services Officer by telephone at 1-866-278-2301.
