Re: GroupNet for Plan Members Rebranding to My Canada Life at Work

You and your employees will soon notice a change when you log in to GroupNet for Plan Members. The GroupNet for Plan Members site will be rebranded as **My Canada Life at Work** on November 18, 2021.

Plan members will continue to see their health and dental benefit information including claims history and coverage balances. What is new about My Canada Life at Work is that plan members who have individual insurance or retirement plans with Canada Life will now see this information when they log in to their My Canada Life at Work.

3sHealth will be updating our website (www.3shealth.ca) to show the rebranding by changing any reference to GroupNet for Plan Members to My Canada Life at Work. All links to the website and commentary booklets for the health and dental plans will be updated.

There is nothing new for plan members to do. They can simply log into My Canada Life at Work with the same email address and password they used previously. The URL itself will officially change to www.mycanadalifeatwork.com however the previous URL will continue to work as it will automatically direct plan members to the new site.

From an employer stand point, if you have information or links to GroupNet for Plan Members on your own websites, intranets, or MyConnection please update the URL to www.mycanadalifeatwork.com and change any references to My Canada Life at Work.

If you have questions about the rebranding of GroupNet for Plan Members to My Canada Life at Work, please contact Lorne Shiplack at Lorne.shiplack@3shealth.ca or 306.347.5528.
